

# Clean air is on the horizon.

*Celebrating the progress towards cleaner, healthier air.*

## 2016 Event Sponsorship Opportunities

# Invest in the FUTURE

We invite you to sponsor our 2016 events. CCA events support our vital work in reducing air pollution across California.

**March 16, 2016 - Toast to Clearing the Air** Sacramento

**May 13, 2016 - California Air Quality Awards** Los Angeles

## Take advantage of these opportunities to:

### Maximize brand exposure

One in four Californians—across all political parties, geographic regions and racial/ethnic groups—name air pollution as the state's most important environmental problem.

Your brand will be seen by our active supporters and the community-at-large through:

- Recognition in donor newsletters, supporter e-newsletters and annual report
- CCA's website
- Traditional and social media event coverage

### Reach decision-makers & environmental leaders

Each event provides your company an exclusive opportunity to network among prominent business, civic and environmental leaders. Gain access to important decision makers through our unique multi-layered approach. Join us to meet:

- California Assemblymembers
- California Senators
- Senior California Air Resources Board Staff
- Senior Air Quality Management District Staff

California's only statewide nonprofit dedicated exclusively to advocating for healthy air.

OVER **45** years of excellence

## Our Approach

Our unique collaborative model brings all interested parties together to find cooperative solutions to California's most pressing air quality issues.

CCA is one of the main reasons why California consistently leads the nation in promoting innovative technologies to improve air quality.

— Mary Nichols, California Air Resources Board (ARB) Chairman

## Recent Victories and Historic Wins

Led a campaign to pass legislation which invests cap and trade revenue in communities most impacted by pollution and poverty.

Co-sponsored legislation that established Charge Ahead California with a goal to put one million electric vehicles on California roads in the next decade.

Successfully secured the first Executive Order from the Governor aimed at providing a sustainable path forward for the freight sector.

Won the nation's first ban on "perc," a toxic dry cleaning chemical which creates smog and threatens our health.

Spearheaded California's original Smog Check program which reduces 100 tons of automobile pollution daily.

Sponsored and helped pass the first law in the nation to reduce greenhouse gases emitted from cars.
