

Clean air is on the horizon.

Celebrating the progress towards cleaner, healthier air.

2020 California Air Quality Awards

Invest in the FUTURE

We invite you to sponsor our 2020 California Air Quality Awards. CCA events support our vital work in reducing air pollution across California.

California Air Quality Awards Los Angeles

Take advantage of these opportunities

Reach decision-makers & environmental leaders

Each event provides your company an exclusive opportunity to network among prominent business, civic and environmental leaders. Gain access to important decision makers while supporting clean air for California.

Join us to meet:

- California Assemblymembers
- California Senators
- Senior California Air Resources Board Staff
- Senior Air Quality Management District Staff

COALITION FOR CLEAN AIR

California's only statewide nonprofit dedicated exclusively to advocating for healthy air.

OVER **45** years of
excellence

Our Approach

Our unique collaborative model brings all interested parties together to find cooperative solutions to California's most pressing air quality issues.

CCA is one of the main reasons why California consistently leads the nation in promoting innovative technologies to improve air quality.

— Mary Nichols, California Air Resources Board (ARB) Chairman

Recent Victories and Historic Wins

Led a campaign to pass legislation which invests cap and trade revenue in communities most impacted by pollution and poverty.

Co-sponsored legislation that established Charge Ahead California with a goal to put one million electric vehicles on California roads in the next decade.

Successfully secured the first Executive Order from the Governor aimed at providing a sustainable path forward for the freight sector.

Won the nation's first ban on "perc," a toxic dry cleaning chemical which creates smog and threatens our health.

Spearheaded California's original Smog Check program which reduces 100 tons of automobile pollution daily.

Sponsored and helped pass the first law in the nation to reduce greenhouse gases emitted from cars.
